SOMNUS SLEEP. DESIGNED.

AT SOMNUS, ONLY THE FINEST, NATURAL AND SUSTAINABLE MATERIALS CREATE OUR SLEEP SYSTEMS.

CRAFTED BY TRADITIONAL METHODS USING INNOVATIVE TECHNOLOGY.

100% FR CHEMICAL FREE FABRIC

Our ethos focuses on healthier sleep and that means creating sleep surfaces entirely free from chemicals. We carefully combine state-of-the-art looms with traditional weaving methods to weave our own luxurious Fire Retardant, FR chemical free mattress fabric, which snugly envelops every Somnus mattress. Each sumptuous mattress is glue free, foam free and FR chemical free.

POSTURE ZONE

Unique to Somnus, our unique Posture Zone technology offers more targeted and responsive support to the area of the body that requires it the most; the hip region. Each individual micro spring contours to your body with precision accuracy and superior support while keeping your spine in a neutral position.

CORTEC™

Deep within every Somnus mattress sit advanced Cortec™ springs. These ultra-fine wire pocket springs with more individual points of contact, adapt and contour to great accuracy and precision to provide superb comfort. As no glue is used in the manufacture of these pocket springs, they are fully recyclable at the end of the mattress' life.

SUMPTUOUS BY NATURE

Using only the most luxurious 100% natural fillings, carefully blended to make the perfect, luxurious sleep environment, we work with many fibres, even those from our own farm. Chosen for their sumptuous softness, inherent resilience, breathability and temperature controlling qualities these are handcrafted into every mattress.
